PRODUCT DESCRIPTION

• Need one adapter that turns your laptop into a full workstation? This 13-in-1 USB-C Hub gives you multiple ports for display, internet, charging, storage, audio, and data transfer in one compact device.
• Supports 4K HDMI output, allowing you to connect your laptop to monitors, TVs, or projectors for presentations, meetings, teaching, and entertainment.
• VGA output gives extra display flexibility for older monitors and projectors — useful in offices, schools, and meeting rooms.
• Built-in Ethernet port gives more stable wired internet connection compared to WiFi, perfect for office work and online meetings.
• 100W USB-C Power Delivery allows charging support while using the hub, reducing the need for many separate adapters.
• Includes SD and TF card slots, making it useful for photographers, content creators, students, and office users who transfer files often.
• USB 3.0 ports support fast data transfer up to 5Gbps for flash drives, external storage, mouse, keyboard, and other USB devices.
• Wireless charging station adds extra convenience for compatible phones and accessories.
• ⚠ Compatibility depends on your device's USB-C port capability. Some features like video output and charging require USB-C ports that support display and power delivery.
• Advantage: 13 ports + 4K HDMI + VGA + Ethernet + wireless charging = complete laptop expansion solution in one device.
Best For
