KEY FEATURES

- Projector
- Laptop Compatible
- Office Presentation Cable
- DisplayPort to VGA Cable
- Male-to-Male Connection
- Plug & Play Design
- 1080P Full HD Support
- 2M Practical Length

PRODUCT DESCRIPTION

- Need to connect a DisplayPort desktop, laptop, or PC to a VGA monitor or projector? This DisplayPort to VGA Cable helps convert DP video output to VGA display input for simple screen connection.
 - The 2M length gives enough flexibility for office desks, classrooms, meeting rooms, projector setups, and home workstations.
 - Supports Full HD display output up to 1080P on compatible devices, making it suitable for presentations, office work, school use, and external monitor connection.
 - Male-to-male design allows direct connection from DisplayPort source device to VGA display without needing a separate VGA cable.
 - Suitable for PCs, laptops, TV boxes, monitors, projectors, and other compatible DisplayPort-to-VGA setups.
 - Plug-and-play design makes it easy to use for basic display connection.
 - ⚠ Important: This cable works one way only — from DisplayPort source to VGA display. It does not convert VGA source to DisplayPort monitor.
 - ⚠ VGA carries video only. For sound, use a separate audio connection if needed.
 - 📦 Advantage: 2M length + 1080P support + direct DP to VGA connection = practical cable for projectors, monitors, and office display setups.
- 📦 Best For
- 📦 Office Presentations
 - 📦 Classrooms & Training Rooms
 - 📦 Projector Connection
 - 📦 VGA Monitor Setup
 - 📦 Laptop / Desktop Display Output
 - 📦 Business & Meeting Rooms
 - 📦 Computer Technicians
