KEY FEATURES

- Projector
- Active Conversion Chip
- High Quality Version
- Laptop to Monitor Connection
- Office Presentation Cable
- HDMI to VGA Cable
- 1080P Full HD Support
- Gold-Plated Connectors

PRODUCT DESCRIPTION

- Need a better-quality HDMI to VGA cable for presentations, office work, projectors, or monitor connection? This High Quality 1.8M HDMI to VGA Cable helps connect HDMI output devices to VGA displays with stable video performance.
 - Designed to transfer video from HDMI-compatible devices such as laptops, desktops, PCs, decoders, and compatible devices to VGA monitors or projectors.
 - Supports Full HD video output up to 1080P, making it suitable for office presentations, classroom use, business meetings, and everyday display connection.
 - Built with active HDMI to VGA conversion technology to convert HDMI digital signal into VGA analog signal.
 - Male-to-male design allows direct connection without needing separate HDMI and VGA cables.
 - High-quality build gives better durability and more reliable connection compared to basic low-quality cables.
 - Gold-plated connectors help improve signal contact, reduce corrosion, and support stable video transmission.
 - ⚠ Important: This cable works one way only — from HDMI source to VGA display. It does not convert VGA source to HDMI monitor or TV.
 - ⚠ VGA carries video only. For audio, use a separate audio connection if needed.
 - ✅ Advantage: High-quality build + 1080P support + 1.8M length = better choice for office, projector, and monitor connection.
- ✅ Best For
- ✅ Office Presentations
 - ✅ Classrooms & Training Rooms
 - ✅ Projector Connection
 - ✅ VGA Monitor Setup
 - ✅ Laptop to Projector Display
 - ✅ Business & Meeting Rooms
 - ✅ Desktop / PC Display Connection
