☐ Good for LAN cable installation

☐ Home Internet Setup

☐ Good for office network setup

☐ Useful for CCTV installers

☐ Pass-through RJ45 connector support

☐ Mchongo huu si wa kukosa

☐ RJ45 crimping tool

☐ Technician-friendly tool

☐ Cable stripping support

PRODUCT DESCRIPTION

- Need a proper tool for making clean LAN cables without wasting time? This RJ45 EZ Pass Through Crimping Tool is designed for cutting, stripping, and crimping RJ45 network connectors faster and more accurately.
 - It is suitable for pass-through RJ45 connectors, making cable termination easier because the wires pass through the connector before crimping.
 - Good for Cat5, Cat5e, Cat6, and compatible Ethernet cable installation work.
 - Useful for technicians, CCTV installers, network installers, IT support teams, office setup teams, and anyone who works with LAN cables.
 - Strong hand-crimping design helps create firm RJ45 connections for routers, switches, patch panels, CCTV NVRs, desktops, access points, and office network setups.
 - Helps reduce poor network cable termination caused by loose connectors, wrong cable length, or weak crimping.
 - ☐ Mchongo huu si wa kukosa
 - ⚠ Important: Best used with compatible RJ45 pass-through connectors. Normal RJ45 connectors may work depending on tool design, but pass-through connectors are the main recommended use.
 - ⚠ Network performance still depends on cable quality, connector quality, correct wire arrangement, and proper crimping technique.
 - ☐ Advantage: Cut + strip + crimp support in one tool = faster and cleaner Ethernet cable preparation for technicians and network installers.
- ☐ Best For
- ☐ IT Technicians
 - ☐ Network Cable Installation
 - ☐ CCTV Installers
 - ☐ Office Network Setup
 - ☐ Home Internet Setup
 - ☐ POS / Shop Network Setup
 - ☐ Computer Repair Shops
 - ☐ Router, Switch & Patch Cable Work

ADDITIONAL SPECIFICATIONS

- Product Type: RJ45 Network Crimping Tool
- Model: 376 EZ Tool
- Tool Function:
 - RJ45 Crimping
 - Cable Cutting
 - Cable Stripping
- Connector Support: RJ45 Ethernet Connectors
- Main Connector Type: RJ45 Pass Through / EZ Connector
- Cable Support: Cat5, Cat5e, Cat6 and Compatible LAN Cables

- Usage Type: Ethernet Cable Making, Network Installation, CCTV Cabling, Office LAN Setup and Home Network Setup
- Suitable For: IT Technicians, Network Installers, CCTV Installers, Computer Shops and Repair Workshops
- Compatible Network Devices:
 - Routers
 - Switches
 - Patch Panels
 - Desktop PCs
 - CCTV NVRs
 - IP Cameras
 - Access Points
 - Network Wall Sockets
- Design Type: Handheld Manual Crimping Tool
- Build Type: Practical Technician Tool for Daily Network Cable Work
- Important Use Note: For best results, use correct RJ45 connector type, arrange wires properly and test the cable after crimping
- Best Use: Fast and clean RJ45 Ethernet cable termination using pass-through connectors
