4K 30Hz Display Support

2M Practical Length

PRODUCT DESCRIPTION

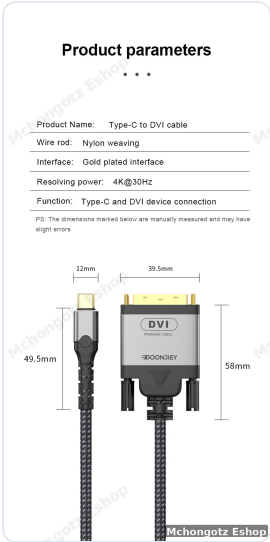

- Need to connect a USB-C laptop to a DVI monitor, projector, or display? This USB-C to DVI 24+1 Cable gives you a direct display connection for office, school, and workstation setups.
- The 2M length gives enough flexibility for desks, meeting rooms, classrooms, and projector connections.
- Supports high-definition video output up to 4K @30Hz on compatible devices and displays.
- Male-to-male design allows direct connection from a USB-C source device to a DVI display without needing a separate adapter.
- Suitable for USB-C laptops, supported tablets, monitors, projectors, and DVI display setups.
- Useful for connecting modern Type-C laptops to older DVI monitors commonly used in offices, schools, computer labs, and workstations.
- ⚠ Important: Your USB-C device must support video output / DisplayPort Alt Mode for this cable to work.
- ⚠ DVI carries video only. Audio is not supported through DVI.
- ⚠ This cable is mainly for USB-C source device to DVI display. It may not work in reverse from DVI source to USB-C monitor.
- ✅ Advantage: USB-C to DVI direct connection + 2M length + 4K 30Hz support = practical display cable for monitors and projectors.
- ✅ Best For
 - ✅ Office Workstations
 - ✅ Classrooms & Training Rooms
 - ✅ Projector Connection

- □ DVI Monitor Setup
- □ USB-C Laptop Users
- □ Business & Meeting Rooms
- □ Computer Technicians
