PRODUCT DESCRIPTION

- Need a stable wired internet connection for your laptop, MacBook, desktop, or PC? This usb c | type c to ethernet | RJ45 adapter helps connect supported devices to LAN internet through a wired network cable.
 - Supports 10/100/1000Mbps Gigabit Ethernet speed on compatible networks, making it useful for faster and more stable internet than WiFi in many setups.
 - USB 3.0 support helps deliver reliable network performance for office work, downloads, video meetings, online learning, streaming, and business use.
 - RJ45 LAN port allows you to connect your device directly to a router, switch, modem, or office network.
 - Compatible with Windows, macOS, and Chrome OS systems with supported drivers and system updates.
 - Compact black design makes it easy to carry in a laptop bag, office drawer, technician toolkit, or travel setup.
 - Suitable for users with laptops or devices that do not have a built-in Ethernet port.
 - ⚠ Important: Does not support Windows RT or Android.
 - ⚠ Actual speed depends on your internet package, router, network cable, computer port, and system compatibility.
 - ☑ Advantage: usb c | type c connection + RJ45 LAN port + Gigabit Ethernet support = stable wired internet solution for laptops, PCs, and office networks.
