PRODUCT DESCRIPTION

- Need to connect modern laptops to older serial devices but no COM port available? This cable solves that instantly.
- Converts USB port to RS232 (DB9) serial interface for compatibility with legacy equipment.
- Ideal for use with network devices, routers, switches, industrial machines, and console access.
- Plug-and-play support with most systems makes setup quick and simple.
- Compact and portable design for technicians and IT professionals.
- Not compatible with VGA display output despite similar naming—this is for serial communication only.

☐ Best For

- IT technicians and network engineers
- Connecting PCs to routers, switches, and serial devices
